

3X1 MOP

Sparkling clean floors – using only water

Smart's 3x1 microfibre mop has been a success in many countries, and over 1.5 million mops have been sold. It cleans all types of floors quickly and effectively. Its ergonomic design makes it easy to use, and it also carries the Nordic Swan Ecolabel.

The mop has a unique and patented system with three functions: dry, scrub and scrape. The absorbent properties of the microfibre require only water to achieve brilliant results. The mop can also be washed in 60 °C and be used over and over again. Function, innovation and environment have been consolidated into an excellent, high-quality product.

- Microfibre mop for effective cleaning
- Sparkling results using only water
- Wash and re-use
- Patented 3 in 1 system: dry, scrub and scrape
